SBR Bonding Agents

Bondaid S

SKU: BA-BDS-008

> *SBR bonding agent and waterproofing additive for mortars, screeds and cementitious systems.*

DESCRIPTION

BONDAID S is a styrene butadiene rubber (SBR) bonding agent and waterproofing additive. Used to improve adhesion, strength and waterproofing properties of mortars and cementitious systems.

Increases compressive, flexural and tensile strength of mortar and screeds. Reduces shrinkage in cementitious systems. Adheres well to concrete, wood, expanded and extruded polystyrene and various other substrates.

Suitable for waterproof mortar for basements, lift shafts, cooling towers, swimming pools and other water-retaining structures.

TECHNICAL SPECIFICATIONS

Type	Styrene Butadiene Rubber (SBR)
Reduces	Shrinkage in cementitious mixes
Improves	Adhesion, strength, waterproofing
Mixing ratio	As per application requirement

bonding agent · SBR · mortar additive · waterproofing · screed
