Elastomeric Coatings

Ecoshield Super

SKU: WP-ESH-003

> *Elastomeric liquid waterproof membrane for exterior and roof waterproofing.*

DESCRIPTION

ECOSHIELD SUPER is used as a liquid waterproof membrane. The product is especially developed for giving an elastomeric, monolithic seal, covering uniformly uneven profiles and providing protection of the substrate.

ECOSHIELD provides protection against weathering, ageing and ultra violet radiation. Ideal for exterior protective and decorative coatings for buildings and exterior waterproof coatings for roofs.

TECHNICAL SPECIFICATIONS

Type	Elastomeric liquid membrane
Finish	Monolithic, seamless
Coverage	1.2–1.5 kg/m² per coat
UV Stable	Yes

waterproofing elastomeric roof exterior UV resistant
