Elastomeric Coatings

Elastothane

SKU: WP-ETH-004

> *High performance UV stable polyurethane waterproof coating for roofs and exterior surfaces.*

DESCRIPTION

Elastothane is a high performance single component UV stable water-based elastomeric aliphatic polyurethane coating for long-term protection of various surfaces.

Excellent for exterior protective and decorative coatings for buildings and exterior waterproof coatings for roofs. Resistant to weathering and UV radiation, making it ideal for Kenya's harsh climate conditions.

TECHNICAL SPECIFICATIONS

Base	Water-based
Type	Single component polyurethane
Coverage	0.2–0.3 kg/m² per coat
UV Stable	Yes — aliphatic
Application	Brush, roller or spray

polyurethane · UV stable · roof coating · waterproofing
