Bitumen Emulsions

Lavatex RBE

SKU: BP-RBE-006

> *Rubber modified bitumen emulsion for damp proofing and waterproofing applications.*

DESCRIPTION

Lavatex-RBE is a cold applied bitumen emulsion modified with rubber latex for damp proofing and waterproofing applications. Provides a black flexible film on application.

Suitable for waterproofing and damp proofing of concrete and brick foundations, basements, retaining walls, bridge abutments, and other surfaces requiring protection from water ingress.

TECHNICAL SPECIFICATIONS

Type	Rubber modified bitumen emulsion
Colour	Black
Components	Single component
Application	Cold applied by brush or spray

bitumen · damp proof · foundation · basement · retaining wall
